Inhalt/*Contents*

9 Roberto Risch, Wolfgang Haak, Johannes Krause, and Harald Meller
Kinship, Sex, and Biological Relatedness – The contribution of archaeogenetics to the understanding of social relations

Interdisziplinäre Überlegungen/*Interdisciplinary reflections*

29 Tatjana Thelen
Kinship: Old problems and new prospects in the conversation between archaeology and social anthropology

35 Erdmute Alber
Multiple Relations: Towards an Anthropology of Parenting

43 Catherine J. Frieman
Kin and connection: Bodies and relations in archaeology and ancient genetics

51 Walter Pohl
What can archaeogenetics contribute to historical research on kinship and relatedness? A medievalist's view

61 Aylwyn Scally
Roots of misunderstanding

Methoden/*Methods*

67 Kurt W. Alt
Morphological kinship analysis in prehistoric burials: Theories, models, and applications

83 Torsten Günther
Erste Methoden zum Auffinden biologischer Verwandtschaften in archäogenomischen Daten und deren Anwendung in prähistorischen Europäern

89 Harald Ringbauer
Detektion von langen identischen Haplotypen in alter DNA – Bestimmung von nahen und entfernten Verwandten

95 Divyaratan Popli, Stéphane Peyrégne, and Benjamin M. Peter
Estimating genetic relatedness from ancient DNA

101 Ronny Friedrich, Ken Massy, and Philipp W. Stockhammer
Calibration of ^{14}C dates using biological kinship

Fallstudien – Steinzeiten/*Case studies – Stone Ages*

113 Christine Neugebauer-Maresch, Maria Teschler-Nicola, Thomas Einwögerer, Marc Händel und Ulrich Simon
Verwandtschaft im östlichen Gravettien am Beispiel von Krems-Wachtberg

125 Jörg Orschiedt, Wolfgang Haak, Holger Dietl, Andreas Siegl, and Harald Meller
The Shaman and the Infant: The Mesolithic Double Burial from Bad Dürrenberg, Germany

137 Mehmet Somel, N. Ezgi Altınışık, Yılmaz Selim Erdal, Çiğdem Atakuman, and Füsun Özer
Intramural burials in Neolithic Anatolia: What do they tell us about social organisation?

149 Maïté Rivollat, Adam B. Rohrlach, Harald Ringbauer, Ainash Childebayeva, Fanny Mendisco, Rodrigo Barquera, András Szolek, Heidi Colleran, Mélie Le Roy, Franziska Aron, Marie-Hélène Pemonge, Ellen Späth, Philippe Télouk, Léonie Rey, Gwenaëlle Goude, Vincent Balter, Johannes Krause, Stéphane Rottier, Marie-France Deguilloux, and Wolfgang Haak
Investigating Neolithic social structures on the basis of unprecedentedly large family trees from the site Gurgy ›les Noisats‹ in France

161 Niels N. Johannsen
Socioeconomic organisation in the Globular Amphora network during the earliest 3rd millennium BC

171 Wolfgang Haak, Mirosław Furmanek, and Harald Meller
Multiple graves from Corded Ware sites in Eulau, Oechlitz, and Szczepanowice

Fallstudien – Bronzezeit/*Case studies – Bronze Age*

183 Sandra Penske, Torsten Schunke, Jörg Orschiedt, Adam B. Rohrlach, Harald Meller, Wolfgang Haak, and Roberto Risch
Life and work – A possible ›house community‹ at the Early Bronze Age settlement of Schiepzig in Central Germany

195 Alissa Mittnik, Ken Massy, Corina Knipper, Ronny Friedrich, Johannes Krause, and Philipp W. Stockhammer
Kinship, status, and mobility in the Bronze Age Lech Valley

219 Katharina Rebay-Salisbury, Doris Pany-Kucera, Michaela Spannagl-Steiner, Fabian Kanz, Christina Amory, and Walther Parson
Tracing mother-child relations in Austrian Early Bronze Age communities through mitochondrial DNA

233 Viktória Kiss, Dániel Gerber, Szilvia Fábián, Bea Szeifert, Julia I. Giblin, Ágnes Kustár, Vajk Szeverényi, Balázs Gyuris, Anikó Horváth, László Palcsu, Kitti Köhler, Gabriella Kulcsár, Balázs Gusztáv Mende, Eszter Ari, and Anna Szécsényi-Nagy
Lifeway narratives of a Bronze Age community from Balatonkeresztúr (Western Hungary) based on bioarchaeological analyses

249 Joanna Brück
Bronze Age relations: genetics, kinship, and gender in Britain

Fallstudien – Eisenzeiten/*Case studies – Iron Ages*

263 Luka Papac, Patxuka de Miguel Ibáñez, Adam B. Rohrlach, Javier Armendáriz, Marcello Peres, Thiseas C. Lamnidis, Angela Mötsch, Stephan Schiffels, and Roberto Risch
Intramural child burials in Iron Age Navarra: How ancient DNA can contribute to household archaeology

297 Anton Gass
Scythian »families« – biological and/or social kinship.
An overview of the research problem

307 Falko Daim, Peter Stadler, Walter Pohl, Roman Sauer, Adrienn Blay, Stefan Eichert, Margit Berner, Doris Pany-Kucera, Bendeguz Tobias, Zuzana Hofmanová, Ke Wang, Katharina Richter, Alexander Herbig, Alina Hiss und Karin Wiltschke-Schrotta
Auf der Suche nach den feinen Unterschieden. Die awarischen Gräberfelder von Leobersdorf und Mödling – An der Goldenen Stiege
